PROFILE

Junior front-end developer seeking the first professional opportunity in the field, focused on creating modern, accessible, and responsive interfaces. Passionate about turning ideas into fluid and engaging visual experiences. Solid foundation in front-end principles and UX/UI practices.

MAIN PROJECTS

Palettor – Intelligent Color Palette Extractor

- Intuitive tool for generating palettes and contrast testing. Ideal for developers and designers seeking color harmony and accessibility.
- Main technologies used: HTML5 | CSS3 | JavaScript ES6+ | React | TypeScript | UX & UI

Pink-Byte – VS Code Theme

- Soft and delicate color theme for Visual Studio Code, inspired by pink and lavender tones to provide a pleasant coding experience.
- Main technologies used: JSON Configuration | VS Code Theme API | Design & UX | JavaScript | TypeScript (syntax highlighting)

HarmonyStream – Your Music, Your Emotion

- Modern music streaming landing page with responsive design and multilingual translation system.
- Main technologies used: HTML5 | CSS3 | JavaScript ES6+ | React | TypeScript | JSON
